

## Kyotango Public Relations Magazine – December 2025

**Kyotango City Public Rideshare - A New Option for Public Transit**  
*The Service is Now Available in All Six Towns! Use for Daily Transportation or Sightseeing!*

**Full service has now begun in Kumihama Town (entire area) and Amino Town (Kitsu, Hamazume, Shioe Districts).**

The kick-off ceremony for public rideshare services in Kumihama Town and a section of Amino Town was held on November 1st in front of Kumihama Station.

This service will be operated by the worker's cooperative, Tango Crew's.

Tango Crew's is an organization that arose from the collaboration between Kyotango City's Hometown Creation Staff (*furusato sousei shokuin*) and Local Revitalization Cooperators (*chiiki-okoshi kyouryoku taiin*) in 2023. The name of the

cooperative is a portmanteau from the phrase “Tango ni kuru” (coming to Tango) and the word “crew”, representing each member’s desire to contribute to Kyotango. With this new service, public rideshare operations have now expanded to all six towns within Kyotango City, providing a new option for both citizens and sightseeing tourists to get around the city.

### **Reinforcing Kyotango’s public transportation system while creating a positive feedback loop for community social and economic exchange.**

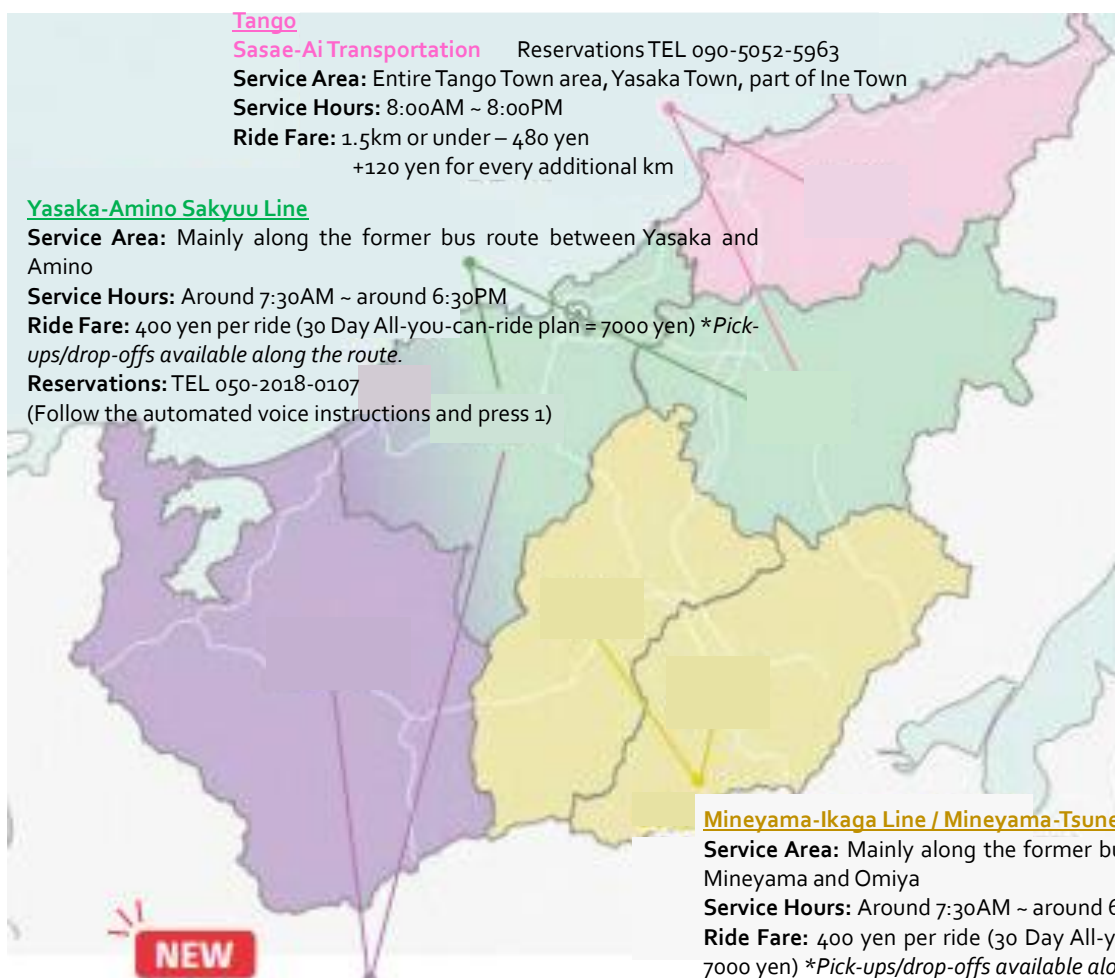

The public rideshare service employs and certifies local residents as drivers, who will be paid for their services and use their personal cars to drive riders around. Now, local municipalities all over Japan are introducing this service into their cities. As of the end of March, Kyotango City retired three bus route services and began utilizing public rideshare services as a replacement since April in the towns of Mineyama, Omiya, Amino, and Yasaka. Moreover, Tango Town was the first area in Japan to start using Uber as a rideshare service and is at the forefront for such programs nationally. This year will mark the tenth year since the service began. Now that rideshare operations have begun in Kumihama Town, public rideshare services are available in all six towns, updating Kyotango’s public transportation system to adapt to the times.

Depending on the route, ride fees through the public rideshare service may be as low as half the cost of riding a taxi, and most routes are focused within a single town. If ridership goes up, not only will it expand rideshare services in Kyotango, but it will also lead to increased social engagement and economic stimulation, feeding into a positive cycle.

In order to secure the high degree of freedom that public rideshare services offer while maintaining service routes for trains and buses into the future, the City will make improvements to meet the needs of our citizens, and work hard to make this service a sustainable and reliable mode of transportation into the future. Please give public rideshares a try.

## *Kyotango City International Association* **Let's Have Some Halloween Fun**

This year, the Kyotango City International Association and the Kyogamisaki Communications Site hosted another Halloween experience event on November 1<sup>st</sup> at Tango Kingdom 'Shoku no Miyako'. Around 150 children and their guardians attended the day's event, and along with the event staff, over 250 people were dressed in all sorts of wacky and fun Halloween costumes. Cars were decorated with Halloween decorations and surrounded the event area as booths for a "Trunk-or-Treat". The children enjoyed visiting the different booths, completing missions using English to get tasty treats, and taking pictures with their family members.

Participants not only dressed up as witches and ghosts, but also as characters from anime and manga series. A special feature about the Halloween event will be broadcast on the city news channel (Channel 11) at a later date.
