Traffic Safety Countermeasure Promotion Team Set Up in the Defense Bureau to Prevent Future Accidents

Special Kyogamisaki Communications Site Safety Measures Liaison Meeting Called into Session

On January 24th, a special safety liaison meeting with Kyogamisaki Communications Site was held in a round-robin fashion about the delayed relay of

information regarding the traffic incident on November 8th last year involving military personnel in a vehicle that had hit a pedestrian, followed by a report from both the Kinki-Chubu Defense Bureau and the City.

Verification Results from the Kinki-Chubu Defense Bureau

Basing off of their Way of Thinking towards Providing Information about Traffic Accidents (henceforth referred to as “the way of thinking”) that was confirmed at the 25th Safety Liaison Meeting held in December 2020, whether or not the accident necessitated information to be swiftly delivered, the Kinki-Chubu Defense Bureau reported that their response was passive and did not confirm the details of the incident quickly enough. In addition to strengthening their collaboration with relevant institutions for the sake of appropriately and securely implementing this way of thinking, the Defense Bureau explained that they established the Traffic Safety Countermeasure Promotion Team to prevent any traffic incidents from happening in the future, and will implement countermeasures regarding traffic safety and address traffic incidents surely and swiftly.

Verification Results from the City

The City received a report from the Defense Bureau on November 9th that the accident resulted in property damage, and would be addressed at the next liaison meeting. Afterwards, even after the City confirmed time after time, the Defense Bureau responded that it was a property damage accident and the incident was judged as such. Then, after the City came across information from a third party that the accident could have sustained injuries to another person, it was crucial for the City and the Defense Bureau to come to a thorough understanding of the entire situation and will secure a transparent way to address the situation according to their way of thinking from here on out.

Protecting Hearts, Supporting Lives
Let's Aim Towards a Community where Everyone can Live at Ease
March is Suicide Prevention Month.
We won't let anyone get left behind.

Suicide does not stem from one's mental weakness, but rather stems from various external factors such as health, lifestyle, work, and finances that may trap one into a psychological corner. So that no one has to feel trapped or feel that they have no other way to live due to a loss of a loved one or social pressures, let's protect and support each other, and figure out what we can do to build a community where everyone can live at ease.

You can also be a Gatekeeper! A Helping Hand for Heart and Life

Notice any Changes

- If you notice any changes in your family or friends, reach out to them.

Listen with Care

- Lend an ear and listen with respect.

Connect them with Support
 ➤ Urge them to talk to a specialist.

Watch over them warmly
 ➤ Watch over them with a warm gaze and stay by their side.

Someone who connects hearts to life is a Gatekeeper.

You don't need any special license to be a Gatekeeper. All of us can provide support as Gatekeepers when we take notice of someone's worries, reach out, listen, connect them with necessary support, and watch over them.

Everyone has their bad days... Are you doing well mentally? Let's check!

- I don't feel fulfilled in my everyday life
- I no longer enjoy the activities I used to enjoy.
- Things I used to do easily before now feel bothersome.
- I feel tired for no reason.

If you checked two or more items above that have been continuing for longer than two weeks, you may have depression. Please talk about them with a doctor, clinician, or consultation service.

Let's reduce our trash and increase our resources-- Please Sort out your Paper Waste and Help Recycle!

According to an analysis of burnable trash in November of last year conducted by the Mineyama Clean Center, about 70% was found to be paper waste. The resources we have on the earth are not unlimited. Please cooperate with us and recycle your paper waste. Detailed information about collection sites are available on the city's website.

What you can recycle vs. What you can't recycle

Recycle your paper with the Paper Waste Collection Organization!

The Paper Waste Collection Organization is a group of local district committees, PTAs, children committees, and welfare workshops. They accept paper from households and workplaces and bring them over to collection companies. Their activities contribute to reducing trash and reusing our resources.

Let's Be Responsible Pet Owners!

There have been many complaints about irresponsible actions by dog and cat owners. Let's be good pet owners and keep our community nice and clean.

Please bring back your pet's poop home with you when on walks.

Please establish a habit for your pet to go to the bathroom before going on walks. Otherwise, bring doggie bags or pooper scoopers with you on walks. If your pet poops, take responsibility as its owner and take its poop back home with you.

Please do not feed stray cats.

When you feed stray cats, the cats will reproduce and their cries and excrements will most likely leave a harmful impact on the surrounding environment. As the number of cats increase, they may be more likely to endure harassment or abuse. If the cats have a set area of activity, please raise them indoors where they will not feel stress.

The novel coronavirus has been spreading during the winter up until now
